

Statement of Faith

All members of the Board of Directors, administrators, support staff and medical personnel shall **annually** sign the Statement of Faith as described in the corporation's bylaws.

The Statement of Faith does not exhaust the extent of our beliefs as Christians but is the foundation of Christian Healthcare Centers' and its subsidiaries' faith, doctrine, practice, policy, and discipline. The organization's Board of Directors is the final interpretive authority on the Bible's application.

I affirm without mental reservation my personal belief in and adherence to the following essential tenets of the Christian faith:

- a) The inspiration, inerrancy, infallibility, and final authority of the Bible;
- b) The existence of one and only one living and true God, existing in three Persons — Father, Son and Holy Spirit, equal in every divine perfection;
- c) The virgin birth and sinless life of Jesus Christ;
- d) The supernatural origin of the physical universe and the creation of human beings in God's image;
- e) The fall of humankind through the sin of Adam, whereby all human beings partake in Adam's fallen nature and stand in need of regeneration and redemption;
- f) Salvation through faith in the substitutionary death, resurrection, ascension and promised return of the Lord Jesus Christ.
- g) God wonderfully and immutably creates each person as either male or female; and that these two distinct, complementary sexes together reflect the image and nature of God; and that human beings are not at liberty to alter their biological sex;
- h) God created marriage to be exclusively the union of one man and one woman, and that intimate sexual activity is to occur exclusively within that union.
- i) All human life is sacred and created by God in His image. Human life is of inestimable worth in all its dimensions, including pre-born babies, the aged, the physically or mentally challenged, and every other stage or condition from conception through natural death, therefore, we are called to defend, protect, and value human life.
